

Keep your name. Keep your model. Get Texas-ready.

Accreditation · Sustainability · Diverse Learners · Curriculum

Who this is for?

Founders that refuse to become someone else's brand—and still want to participate in TEFA. Founders who want their own name on Odyssey, not a network's. Licensed child care ready for revenue diversification. High schools building out dual credit and workforce models. School leaders looking for a community for economy of scale. New founders with various operational support needs.

Accreditation and Credentialing

Full TEFA & Texas Rising Star support

Guided path through TEPSAC/TEA-recognized accreditation and Texas Rising Star. Support accreditation, timelines, document creation, enrollment, messaging and info sessions

Business Health

Build a business model for sustainability

Pricing, year-one cash flow, vendor vs. private-school lanes, and a model that works if you are a provider, a co-op or a private school. Join other schools for economy of scale to purchase curriculum, services, materials, food and training.

Learner Responsiveness

Support neurodivergent learners, for real

Student learning plans, TBRI- and trauma-informed classroom practice, and teacher training. Built for programs serving mixed classrooms and neurodivergent learners—not clinical therapy and not a slogan. Real solutions, for real classrooms through trainings, behavior plans, direct service connections and referral methods.

Operationally Savvy

Included operational support for curriculum, enrollment and more!

Help design, sequence, and host the program you want—early childhood through high school workforce and dual-enrollment navigation. We source the curriculum and assessments; you own the instructional model. —not a borrowed brand.

YEAR ONE

\$9,000

Full · two payments · \$750/mo
